TOTAL		\$1,178.93	\$60.06	\$1,238.99	

* **New Book**

Note: There is 1 new books in the package + various Mindtap so it would not be worthwhile financially to buy any "used" books from past students as it would be expensive to buy components separately. I would suggest buying the package offered through the Bookstore.

A full refund is available on all textbooks within 10 business days of purchase provided the texts are in original condition, original packaging and accompanied with proof of purchase.
